

Mad River Watch Site Profile

Brook Road – High Bridge Brook

Site Coordinates: 44.180725, -72.811618

Site Location Description: 0.4 Miles from the junction with Joslin Hill Road.

Parking and Access: Park along the side of Brook Road and climb down the bank to reach the field site.

Sampling Location: Data should be collected above the confluence with the unnamed southfork tributary.

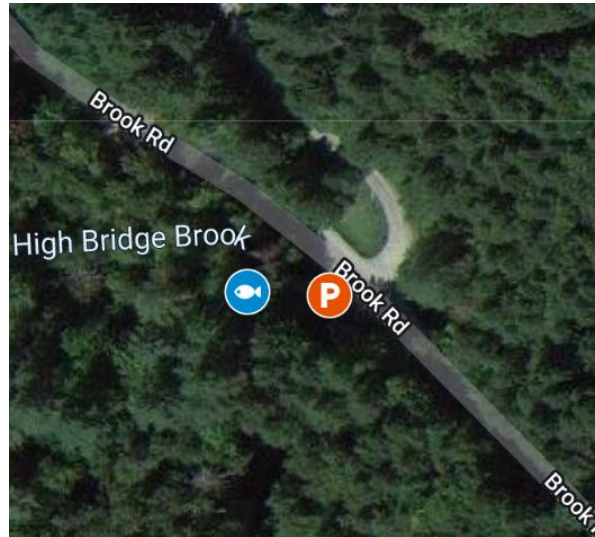

Ease of Access: Footing can be a bit tricky as you will have to climb down a bank and navigate some downed trees and branches.

Analytes: Temperature, Conductivity, pH

Riparian Buffer Description: Mostly forested on both sides of the brook - mixed deciduous and coniferous. Flows under Brook Road.

Naturalist Notes (Ecology, History, Wildlife, Plant Species, etc.):
