

## Mad River Watch Site Profile

### PONY FARM ROAD

**Site Coordinates:** 44.239150, -72.770820

**Site Location Description:** Pony Farm Rd in Moretown, just south of Hoover Hill Rd.

**Parking and Access:** Parking area beneath hemlock grove next to the river. Access to the sampling site is on a trail on the other side of an orange metal gate. Walk down the dirt trail to the river.

**Sampling Location:** At the end of the dirt trail, on the rocky/sandy river's edge.

**Ease of Access:** Very easy access.

**Analytes:** Temperature, Conductivity, pH

**Riparian Buffer Description:** Trees and shrubs on sampling side of the bank with Japanese knotweed and grasses. Opposite bank borders a large hay/corn field with grasses leading down to the river. Several lone trees dot the top of the bank.

**Naturalist Notes (Ecology, History, Wildlife, Plant Species, etc.):** Japanese knotweed, Chestnut-sided warbler. Lots of erosion on the opposite bank.

**Other Comments:**
