

Mad River Watch Site Profile

MEADOW ROAD

Site Coordinates: 44.21975, -72.78938

Site Location Description: Meadow Road, near bridge, East of Route 100

Parking and Access: From Route 100 North, turn left down the hill towards Meadow Road. Parking is in a lot on the right hand side just before the bridge.

Sampling Location: Descend the staircase just before the start of the path – indicated by the dog waste bag dispenser. Sampling and field observations should be taken from the rocky outcropping at the bottom of the stairs.

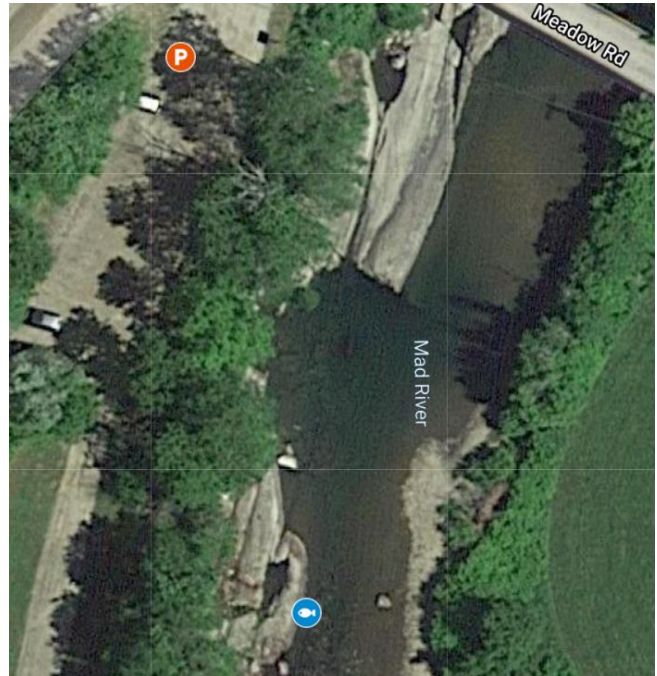

Ease of Access: Steep staircase, limited level ground near actual river.

Analytes: Temperature, Conductivity, P, N

Riparian Buffer Description: Steep bank on West side of river with a narrow riparian buffer. East side covered in knotweed before transitioning to agricultural fields.

Naturalist Notes (Ecology, History, Wildlife, Plant Species, etc.): Phoebe heard singing in the bushes on the East bank.
